

Manukonda Bhanu Srujan Sai

Hyderabad, India

+91 97002 76369 — srujansaim04@gmail.com — linkedin.com/in/srujan19 — github.com/Srujansai19

Professional Summary

Computer Science undergraduate passionate about crafting intuitive, visually appealing, and user-centered digital experiences. Creative in UI/UX design and proficient in full-stack development using React.js, Spring Boot, Node.js, Java, Python, MySQL, and MongoDB. Skilled in building responsive, scalable applications with clean, maintainable code and a strong focus on usability and performance.

Projects

QuickBill — Supermarket Management System

Java, Spring Boot, MySQL

- Built a web-based system to automate billing, inventory management, and sales tracking for retail use.
- Implemented secure authentication, real-time stock updates, invoice generation, and REST APIs, reducing manual billing effort by 60% and improving inventory accuracy by 40%.

Streamify — Real-Time Chat and Video Calling Application

React.js, Node.js, MongoDB

- Developed a real-time collaboration platform with live chat and video calling features.
- Integrated WebSockets for messaging and JWT-based authentication, supporting 100+ concurrent users and reducing message latency by 25%.

SmartLot — IoT-Enabled Smart Parking System

Python, IoT, MongoDB

- Designed an IoT-based parking system to monitor parking slot availability in real time.
- Built a backend dashboard and applied machine learning models to predict parking demand with 85% accuracy, helping optimize parking space utilization through data-driven insights.

Internships

Infosys Springboard 6.0 — AI/ML Internship

2 Months

- Completed structured training in machine learning concepts with hands-on project work and certification.

IBM SkillsBuild — AI & Cloud Internship

4 Weeks

- Gained practical exposure to AI and cloud fundamentals using IBM Cloud through guided labs and training.

Certifications

- SQL and Relational Databases — IBM
- Java Certification — OneRoadmap
- Flipkart GRiD 6.0 — Software Development Track (Level 1)
- Data & Business Analytics Program — University of Hyderabad

Technical Skills

Languages: Java, Python, JavaScript, Html, CSS

Frameworks: Spring Boot, React.js, Express.js, Flask

Databases: MySQL, MongoDB

Tools: Git, GitHub, VS Code, IntelliJ IDEA

Analytics: Power BI, Tableau, Pandas

Education

B.Tech in Computer Science and Engineering

2023 – 2027

Malla Reddy University, Hyderabad

CGPA: 8.40

Interests

Badminton, Technology Exploration, Road Trips
